

To lead, champion and manage a sustainable marine environment and inshore fisheries

## REVIEW OF COCKLE FISHERIES MANAGEMENT IN THE KENT & ESSEX DISTRICT

**14 June 2022 Council Chamber,  
 Chelmsford Council offices**

Consultation 1 reviewed and evaluated a range of basic framework models which included:

1. The size and shape of any specific management area
2. The type of fishing gear
3. Whether access to an area would be limited and if so to what kind of number/range of licences or permit would likely be issued
4. Whether the IFCA would use a Regulating Order or Byelaw to manage the area

Taking the responses to this consultation into account as well as the evidence given orally, at their meeting on 14 June, Members will be voting on the following:

1. [Consultation 1 summary and outline for Consultation 2](#)
2. [Vision statement and evaluation criteria, feedback and options](#)
3. [Small-scale trial feedback and 2022 Permitted Cocker Fishery Management](#)
4. [Framework options to take through to Consultation 2](#)

For more information and to review the consultation responses and oral evidence films go to our website <https://cocklereview.kentandessex-ifca.gov.uk/consultation-1>

Should you wish to address Members of the IFCA on any of the agenda items prior to their voting on them. please reply to this email with the agenda item(s) that you wish to speak on, no later than Friday 10 June, and we will make the Chairman aware that you wish to speak.

Please note you will have no more than 2 minutes to speak on any item. We would strongly suggest that you read the reports before deciding at what stage you wish to speak.
